

## MANUFACTURERS DECLARATION OF CONFORMITY

Multi-Contact hereby declares that the products identified in this sheet, by virtue of their design and the methods used in their manufacture, conform to the applicable requirements of the relevant Regulation(s).

In the event of subsequent alterations to these products not carried out by us this declaration is rendered invalid.

This manufacturers declaration is applicable to the following MC products:

<b>Type</b>	<b>Connectors for automation</b> All connector components included in the <b>Roboticline</b> catalogues and flyers.
<b>Applicable Regulation(s)</b>	European Regulation 2002/95/EC ("RoHS")

Some of the metal parts are machined on a lathe. To increase the machinability, these copper alloys contain up to 3.5 % Pb. The RoHS allows Pb as alloy element in copper alloys to increase the machinability (see RoHS Annex, point 6).

The limits of the RoHS are: 0.1 weight% for Pb (other than Cu alloy), Hg, Cr<sup>VI</sup>, PBB and PBDE; 0.01 weight% for Cd. Any unlikely but possible contamination is expected to be far below these limits.

This declaration of conformity is still valid after the court's judgement from April 1, 2008 annulling point 2 of the Annex of 2005/717/EC.

**Place/Date of issue** Allschwil, 24 October 2008
